

Your equipment values, right inside of AgWare.

The comps and values you already trust, brought to you into your loan-origination workflow.

Tractor Zoom Pro comps and values now appear right inside AgWare. Build the list, add the asset, see the comps, and pull the value, without ever leaving your organization workflow.

What You'll Get

STAY IN YOUR WORKFLOW

Complete the appraisals inside AgWare. No tab-switching, no second system.

SAME VALUES YOU TRUST

The same transparent comps and values you trust from Tractor Zoom Pro. No black box.

NO MORE RE-KEYING

Lists and assets sync both ways. Build it once, and it shows in both places.

ONE SOURCE OF TRUTH

Tractor Zoom Pro values flow into your report. The number you see is the number you deliver.

GETTING STARTED

Contact your Tractor Zoom Customer Success Manager to learn more about this integration..

WHY THIS MATTERS

The AgWare integration puts the equipment values you trust in the system where you already work, so your appraisals are faster, cleaner, and easier to defend.

- ✓ Faster approvals, completed without leaving AgWare
- ✓ Fewer manual errors from re-keying data
- ✓ Transparent, defensible values on every report
